

**Juliana Korver- 5 time Women's PDGA World Champion says this about the Gran Canyon course:**

*"I wish more courses would employ this kind of philosophy. I had forgotten how much fun it was to play out here."*

**Stan Frischman- Assistant Recreation Director, Big Cypress Seminole Tribe of Florida says:**

*In putting four disc golf courses in the ground, I've learned, cutting corners and taking the advice of amateurs, costs you more in the long run. WCDGD made the design & construction of "Indigo Disc Golf Park," the most versatile and professionally constructed course I've been involved in. The course layout, meets the needs of beginners as well as providing challenges for more advanced players. They made it very user friendly. I strongly recommend the services of "World Champion Disc Golf Design, LLC" to make your disc golf course a successful project that will give your community many years of enjoyment & exercise in the great outdoors."*

**Cesare Francorsi- Course Steward at Talamone Camping Village in Talamone, Italy says:**

*"The red course was awesome for the people who had never played and still fun for the better players, and the blue course was challenging enough for the experienced players. So, basically the Talamone disc golf course design was 100% successful and catered to everyone."*

**Reese Swinea- Founder of Fly-18 says this about the Gran Canyon course:**

*"Incredible!! Most courses have two or three signature holes. At the Canyon they just kept coming. DeLaveaga has one "top-of-the-world". The Canyon has several. It's like a lobster buffet for disc golfers. I'd easily be willing to pay 5 bucks for every round."*

# What they are saying about us!

**Jack Colligan- Manager Sarasota County Parks and Recreation says:**

*"During this project, WCDGD was excellent to work with, as they were constantly on site making sure everything was being done according to the design. The site we chose was a very small area with lots of trees and underbrush but WCDGD designed a course that would not only be good for new players but still challenging enough for veteran players. The finished product turned out to be a great! Since the Pinebrook park disc golf course has been open, we have seen a very steady use from people of all ages and genders. In summary, I would strongly recommend World Champion Disc Golf Design, LLC for designing and constructing a Disc Golf course."*

**Avery Jenkins- 2009 Men's PDGA World Champion says this about the T-2 course:**

*"T-2 is a great competitive, demanding course for skill levels ranging from Advanced Amateur to Top Elite Professional layers. It's by far the best course that I have played in the Orlando area and one of the best in the entire state of Florida."*
